Guest of honour: **Professor Ian Shipsey FRS**,  
Head of Department Physics, and Henry Moseley  
Centenary Professor of Experimental Physics, University of Oxford.

Title of speech: ***From Quarks to the Cosmos.***  
Major advances are being made in understanding the nature of matter,  
energy, space, and time and in understanding the universe as a whole.  
This talk will give a brief review of recent progress in both particle  
physics and cosmology and the major outstanding questions which  
we optimistically anticipate will be answered by 2070.
